

## Communicate and Collaborate in the cloud with the IBM LotusLive online collaboration suite

### SEMINAR INFO:

Nov 2, 2010  
9:30 AM - 1PM

IBM Office  
600 Anton, 2nd Floor  
Costa Mesa CA, 92626

Nov 9, 2010  
9:30 AM - 1PM

IBM Office  
425 Market Street,  
Room 20-240  
San Francisco CA, 94105

You're invited to attend this FREE seminar to discuss IBM's cloud initiatives for collaboration. Cloud computing platforms provide flexibility, speed and cost reductions. IBM's suite of collaboration tools strengthen communications internally and externally, while aiding in the coordination of resources for teams and projects.

Learn how IBM LotusLive services can help you:

- Host online meetings, build communities, communicate in real time and share files in one simple place, virtually anytime, from anywhere
- Provide collaboration solutions in a security-rich environment without the hassles of firewalls
- Deliver these services through an online delivery model, reducing cost and startup time, eliminating complicated installations and reducing the need for on site IT support
- IBM offers this solution for organizations who want to migrate to a full-cloud based collaboration platform, and for firms who need a hybrid cloud environment

At this session, you will get the opportunity to have hands-on experience with the IBM software suite. We will also show the newly unveiled LotusLive Notes and the latest enhancement to IBM LotusLive.

For companies evaluating a hybrid model, we will show how easy it is to integrate your on-premises Domino infrastructure with LotusLive. This capability puts LotusLive Notes way ahead of the alternatives from both Google and Microsoft.

### IBM has one of the most comprehensive cloud portfolios designed specifically for businesses

The services are bundled in different packages to provide cost-effective options for your company, whether it is a small business or a large enterprise.

#### E-mail

- LotusLive Notes
- LotusLive iNotes

#### Collaboration
